Milford Exclusion List

This is a list of companies whose securities Milford will not hold directly in any of its Investment Funds.
Milford can use indirect investments, including derivatives and externally managed funds, for market exposure and hedging purposes. We monitor the extent to which these indirect investments have exposure to companies on the Milford Exclusion List. We do this with a view to ensuring our indirect exposure to excluded companies remains below our materiality threshold in aggregate for each Milford Fund.
This exclusions list is periodically reviewed and updated. It is provided for general information purposes only and is not intended or any other purpose.
More information on the Milford Exclusion List and Milford's sustainable investment approach can be found at https://milfordasset.com/about-us/sustainable-investing.
