1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Milford Australia Pty Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Milford Australia Pty Ltd

Milford is a wholly owned subsidiary of Milford Asset Management Limited ("MAM"). MAM was formed in 2003 and is the parent company of a well-established, award winning investment management group that has over \$15 billion AUD under management. Milford is a boutique investment firm that was created in Australia in April 2014 to enable investors to take advantage of the investment expertise and experience of the MAM team.

2. How the Milford Global Real Asset Fund (AU) works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Class when they invest. The Fund is comprised of three classes of units: Milford Global Real Asset Fund (AU) - Class W, Milford Global Real Asset Fund (AU) - Class R and a third class of units that is not available to the public. In general, each unit represents an equal interest in the assets of the Class subject to liabilities; however, it does not give investors an interest in any particular asset of the Class.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum investment amount for Class W is \$50,000 and Class R is \$1,000. We may waive the minimum investment amount for Class W units at our absolute discretion.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.20%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment is \$1,000.

You can also invest via direct debit on a monthly basis using the savings plan. The minimum monthly savings plan investment into the Fund is \$100 per month. You should read the Reference Guide for more information on the savings plan.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund intends to distribute income quarterly. Distributions will be calculated on the last day of period end, and are normally paid to investors within 14 Business Days after the period end although the distribution at 30 June may take longer. Equity Trustees may amend the distribution frequency without notice.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, where an investor makes a large withdrawal request (5% or more of the units on issue in the Fund at the start of the relevant distribution period), their withdrawal proceeds may be taken to include a component of distributable income.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Milford Global Real Asset Fund (AU) New Zealand Wholesale Investor Fact Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Or sending it by fax to +612 9251 3525

The minimum withdrawal amount is \$1,000 for Class W and Class R, subject to the minimum balance requirements. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution (“Withdrawal Price”). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs (“Sell Spread”). At the date of this PDS, the Sell Spread is 0.20%.

The Withdrawal Price will vary as the market value of assets in the Fund or Class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$1,000 for the R Class or \$50,000 for the W Class as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a ‘disclosing entity’. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC (“Annual Report”);
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC’s website.

3. Benefits of investing in the Milford Global Real Asset Fund (AU)

Significant features and benefits

Some of the significant features and benefits of investing in the Fund are as follows:

- A focus on delivering strong risk-adjusted returns with regular quarterly distributions (as applicable).

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund’s investments, repayment of capital or any rate of return or the Fund’s investment performance. The value of the Fund’s investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Key Risks

Some of the things that may cause the Fund’s value to move up and down are summarised below. These risks are not exhaustive:

General Investment Risks

Investment return and active management risk

Past performance is no guarantee of future performance. As Milford is an active manager, there is a risk that the Fund may underperform compared with its investment objective or with the market.

Market risk

Returns of the Fund will be affected by the performance of the investments chosen for the Fund which may in turn, be affected by the performance of the investment markets generally. This risk, related to market performance, includes demand and supply in the market and economic and regulatory conditions, including market sentiment, inflation, interest rates, employment, political events, environmental (including climate change) and technological issues, and consumer demands.

Interest rate risk

This refers to the risk that the market value of the investments of the Fund can change due to changes in interest rates.

Liquidity risk

Some investments may not be easily converted into cash with little or no loss of capital and minimum delay, because of insufficient availability of buyers, suspension of trading on request from the market regulator or the entity involved, fund outflows, or disruptions in the market place. Securities of small entities in particular may, and especially in falling markets, become less liquid. Milford may hold a small number of unlisted securities that are far less liquid than listed securities.

Currency risk

Where underlying investments are invested in jurisdictions outside of Australia, the returns may be affected by movements between the other currencies and the Australian dollar.

Entity risk

The Fund's investment in an entity may be affected by unexpected changes in that entity's operations or business environment, including the risk that the entity may become insolvent. If this occurs the Fund may receive a smaller or no return from, or it may lose, its investment in the entity.

Counterparty risk

A counterparty to a contract may fail to meet their obligations under it, causing loss to the Fund. This potentially arises with various investments including derivatives.

Derivative risk

Because the Fund may use Derivative instruments such as futures and options, that are contracts between two parties that usually derive their value from the price of an underlying physical asset or market index, the investment movements may be more volatile than if a Fund is invested solely in equities. Derivatives can be used to manage risks, but may expose the Fund to other risks. This means that the use of Derivatives can lead to higher gains or losses than a portfolio that does not use Derivatives. The Responsible Entity and Milford have Derivatives policies in place including on the types of Derivatives used, controls on their use and the processes for assessing compliance with those controls. A Derivative may involve gearing, that is, liability for a loss from a change in price of a security, currency or index which exceeds the amount of cash or assets initially required to establish the Derivative. The Responsible Entity mitigates this price risk through diversification and a careful selection of securities and other financial instruments.

Fund of funds risk

The Fund may invest into underlying funds. An investment of a Fund in an underlying managed fund may be affected by unexpected changes in that underlying managed fund's operations or business environment. There may also be a risk that the underlying managed fund may have its assets frozen for a period of time or that the manager of that fund suspends withdrawals. This may have an impact on your ability to withdraw, from the Fund.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Termination of the Fund risk

There is a risk that the Fund may be terminated if the Responsible Entity elects to terminate the Fund in the future for any reason, such as if the Fund's objectives can no longer be achieved.

Other general risks

Outlined below are other general risks which we believe may affect the Fund, along with the Responsible Entity and Milford's approach to seek to reduce the risk. The value of your investment and your ability to withdraw funds may be affected by some or all of the following risks.

Service provider risk

You could be adversely affected if any of the various parties involved in the operation of the Fund, including us, or service providers fail to perform their obligations. This could impact your returns or the ability to withdraw your funds. We actively monitor and review the performance of all key service providers in performing their agreed contractual arrangements.

Operational Risk

This is the risk of technological or process failure or impacts from the wider financial market in general. This could impact your returns or the ability to withdraw your funds. The Responsible Entity and Milford have a risk management policy that incorporates its business continuity plan in order to minimise business disruption from failures or unforeseen events.

Regulatory and tax risk

Fund performance may be affected by regulatory changes and changes to tax legislation in Australia or other global jurisdictions, which could have an impact on the value of your investment. To reduce these risks, Milford's investment process takes into account the tax and regulatory implications of its investment decisions.

Fund liquidity and repayment risk

This is the risk that the Fund cannot make withdrawal payments on time. This is due to a mismatch between the maturity profile of the investments and the amounts required to meet repayments. We have the right to defer repayments, switches and transfers if we believe the realisation of assets to meet the repayment is not practicable, would be materially prejudicial to all investors, or is not desirable for the protection of the Fund. Milford aims to have the Fund primarily invest in liquid assets and markets with appropriate diversification. We also monitor the liquidity profile of the Fund and the historic withdrawal profile.

Fund risk

The Fund could terminate, the fees and expenses could change, the Investment Manager or the Responsible Entity could be replaced and the Investment Manager's investment professionals could change.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.95% p.a. of the GAV of Class W and 1.15% p.a. of the GAV of Class R is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from a Class monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the GAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2022. Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Abnormal expenses

Abnormal expenses other than those referred to in the management fees and costs section above may be reimbursed from the Fund. These are costs which are not expected to be incurred on a regular basis, such as the costs of holding an investor meeting.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of OTC Derivatives that reflect transaction costs that would arise if the Fund held the ultimate reference assets, as well as the costs of OTC Derivatives used for hedging purposes. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that a Class will incur when buying or selling assets of the Class. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from a Class and are not separately charged to the investor. The Buy Spread is paid into a Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The Buy/Sell Spread is 0.20% upon entry and 0.20% upon exit. The dollar value of these costs based on an application or a withdrawal of each Class is \$40 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of a Class's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred.

The net transaction costs for the Class are 0.12% p.a. of the GAV of Class W and 0.12% p.a. of the GAV of Class R, which is based on the relevant costs incurred during the financial year ended 30 June 2022.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Class. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on 1800 161 310 for further information.

¹ Please see the definition of a 'Wholesale Client' in the Glossary in Section 6 of the Reference Guide to see if you are able to invest in Class W of the Fund.

Adviser Service Fee

If you have a financial adviser, a service charge may be separately negotiated with your financial adviser and deducted from your investment monies before they are invested to buy units. This payment is separate from the costs referred to in section 6 above of the PDS.

Details of any service charge should be set out in the Statement of Advice or Financial Services Guide given to you by your financial adviser.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Milford Global Real Asset Fund (AU) - Class R		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.15% p.a.	And , for every \$50,000 you have in the Milford Global Real Asset Fund (AU) - Class R you will be charged or have deducted from your investment \$575 each year
Plus Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.12% p.a.	And , you will be charged or have deducted from your investment \$60 in transaction costs
Equals Cost of Milford Global Real Asset Fund (AU) - Class R		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$635* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the “Fees and other costs” section before making a decision. Go to the Reference Guide which is available at www.milfordasset.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.milfordasset.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Apex Fund Services Pty Ltd
Client Services Registry Team
GPO Box 4968
Sydney NSW 2001

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Investors can also complete the application process online (please go to <https://milfordasset.com.au/invest-now> for further instructions). If you choose to apply for units in the Fund online you will be required to register, confirm your acceptance of the terms and conditions, and download a copy of this PDS prior to proceeding. The online application includes the option of completing your AML and KYC requirements online, and submitting the application directly using an electronic signature.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a ‘cooling off’ period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Also, the right to cool off will not apply if you are a Wholesale Investor (as defined in the Reference Guide).

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
