February saw continued strength in US equities, while Australian equities produced modest gains as leadership continues to be in technology companies with resources pulling back. Some signs of a tick up in inflation in the US led to higher rates over the month, as expectations of rate cuts continued to be pushed back.

The Fund returned -1.4% over the month as our sector selection and stock picking did not work out over this reporting season. The Fund is weighted more to resources and energy - which were the worst sectors in the ASX over the month - and has only modest investments in financials, consumer discretionary and IT stocks which were the stronger sectors. We are comfortable with our sector allocations from the risk reward offered.

On the stock picking front, our key winners were The A2 Milk Company (+19.9%), Light & Wonder (+20.0%), Xero (+14.9%), and Carsales (+11.4%). A2 Milk has had an improvement in its infant formula sales channels. Light & Wonder has had success with the launch of a new game. Xero has been cutting costs and improving its product in Australia and New Zealand.

On the negative side, a number of stocks contributed to the Fund's decline over the month, in some of our larger positions. After a strong few months, Neuren Pharmaceuticals pulled back 18.0%. We remain optimistic about Neuren's drug Daybue and its pipeline drug NNZ2591. Our other losers were in resources and energy where commodity prices have continued to pull back. South32 was down 11.9% while BHP and Rio Tinto were both down 7.1% and 6.9% respectively. Santos pulled back 6.4% as a possible merger with Woodside did not proceed. With economic growth accelerating in the US and not as bad as feared in Europe, we may see a strong recovery in commodities as China stimulus begins to help with its economic growth and resources demand.

The Fund maintains a balanced asset allocation with some cash to reflect markets that are modestly expensive and over-extended, but invested enough to participate in further market gains. We have used reporting season to top up some of our positions that were weak and some new positions in businesses with improved outlooks.
